## **NEW EXOTIC FLAVOURS OF CHOCOLATE CUPCAKES LAUNCHED BY CAKE POINT**

Exciting flavors of chocolate cupcakes, that have never been made before have been launched by Cake Point, Boston. Cake point is a bakery/cafe which specializes in baking cakes and confectionery that have a unique flavor.

These chocolate cupcakes have a one of a kind flavor and have been launched to give eating cupcakes a new meaning. Eating these cupcakes is more adventurous than eating the same old boring chocolate chip or double chocolate Cupcakes said Cake point owner John Scott.

The four exciting flavors that have been launched are Belgian chocolate, white hazelnut (white chocolate with hazelnut), nougat & white chocolate and chocolate mousse. The hollow centers of the cupcakes are filled with chocolate. The tops of the cupcakes are covered with a frosting and then sprinkled with chocolate shavings. These gorgeous looking cupcakes are wonderfully delicious with their unique flavors and are made from high quality ingredients which are imported from all over the world.

The introductory price for each of these cupcakes is \$ 1. They are also available in packs of 4 and 6 which are priced \$ 2.95 and \$ 3.95 respectively. You can choose your favorite flavors while ordering them as they are packed right in front of you. These freshly made cupcakes can be bought in their shop in Boston or can be ordered over the phone. Cake point delivers their Cupcakes and other confectionery all over the world. The cupcakes are carefully packed before being delivered, to make the freshness last.

More information about the Cupcakes is available from John Scott at Cake Point, Boston.
